## **A VISIT TO FORVAL COMPANY**

After having introduced by Mr. Bun Hay, Business Development Manager, FORVAL (Cambodia) Co. Ltd, FORVAL Corporation Company, one of the outstanding telecommunication companies in Japan, invited Cambodian Students Association in Japan (CSAJ) represented by Ms. Heng Sopha, the CSAJ's President, together with other two members, Mr. Hak Pheara and Miss. In Chanborey to have a visit to the company dated on July 06<sup>th</sup>, 2010.

We were warmly welcomed by Mr. MASAHIRO ARIGA, Vice President, and Mr. SATOSHI MITSUKURI, Consulting Division, Overseas Project and Executive Advisor at the FORVAL's main office located at a very busy business centre, Shibuya. One of the main purposes of the meeting between FORVAL, a private sector and CSAJ, a student association, is to establish mutual interaction which would provide both sides benefits as well as to strengthen the relationships between Japan-Cambodia in a broader perspective. The meeting started at 3:30pm and ended at 5:30pm.

At the very beginning of the meeting, FORVAL had introduced us the main purpose of its company in having interest with CSAJ. The main reason is that FORVAL is currently investing in Cambodia, its second country after having a successful investment in Australia, and is planning to expand its business with other Japanese firms. Back in Cambodia, FORVAL (Cambodia) CO.LTD, is investing its business on advising, supporting and constructing business development. The major target of FORVAL is all Japanese companies which are interested in investing their business in Cambodia. For this reason, through CSAJ, FORVAL desires to learn more about the conditions of Cambodian students in Japan. At the meantime, FORVAL plans to match those Japanese Companies with Cambodian students who are planning to go back after their graduations. Therefore, as suggested by FORVAL, CSAJ plans to hold Student Seminar by the end of this year.
