

CSAJ Student Survey 2013

CSAJ has honor to publish the result of our survey of Cambodian students studying in Japan.

We have collected 160 responses out of total number of approximately 380 students. As the number of respondents is about 40% of total students, the result of this survey does not reflect full characteristics of students studying in Japan.

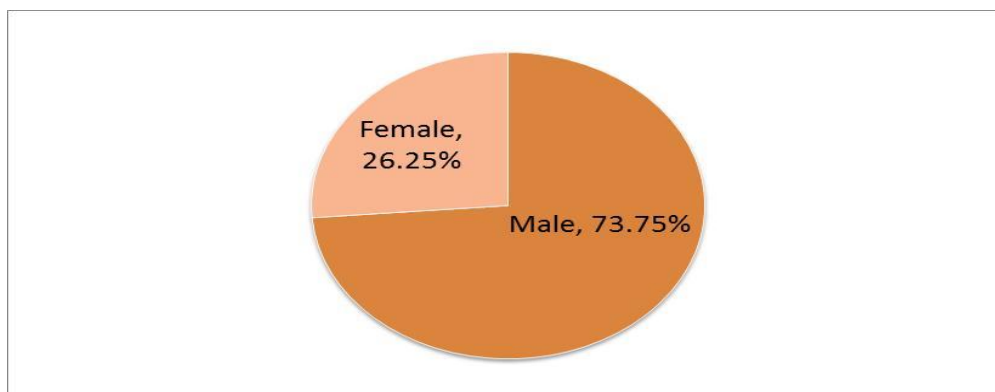

However, we hope that this survey would give some of overall images of the Cambodian students in Japan.

We would like to express our deep thanks to all respondents to the survey for their cooperation.
